Case: Cambridge Analytic's use of fake social media accounts to influence the 2016 presidential vote in the United States of America								
Ethical Quandry								
Public (Misinforming the puiblic on the reality of voters toward a politcal side)	Client and Employer (Allowing the clients pages to be flooded with bots, ads, that are pushing political agenda)	Product (Containing bots on the system)	Judgment (Deciding it was a good choice to allow these bots to live on their systems)	Management (Preventive tools for bots to misinform the publc)	Profession (Mispewing information about the election numbers and throwing off the public)	Colleagues (Flooding the pages of other software engineers)	Self (Harming the reputation of the CS people in charge of creating these bots)	Individual systems affected
